Questions?

- What are the emotions that this prototype makes you feel and why?
- What props/features stood out to you?
- How **realistic** is this representation? How **creative** is this representation? Was it **simple** enough?
- Is there anything missing? Any lack of emotions? Anything we should add?
- Is this representation striking? If not, what/how could we change/add to illustrate a more powerful message?
- How could we improve this representation of an environment with autonomous weapons?
More props?
- Is there anything you find confusing
