4	Test settings page	Using website designer's tools	Physical testing/debugging	1-2 hours 10/29/21
5	test/agree to conditions with the tier upgrade system	Making sure that the added perks are fair to the monthly fee (lots of sanity checks)	Getting feedback from the clients and if they feel that it is fair for the price point	2-3 hours 10/29/21

- At the end of the day, all tests should be completed by November 4th. In time for prototype 1 presentation with the client.

- Riskiest design aspect : Tier upgrades for loyalty program accounts.
    - If it works, It will pay off as a way for customers to be more involved in the ecosystem.
    - If not done correctly, it could cause negative feedback among users and the client.
