

# VR Immersive Experience

## Project Progression

### Client Meeting 3

- ▶ Team B3.4
- ▶ 11/9

# Our second prototype

**Expanding on the Progress Tracking System**

**Connecting all Basic Functionalities**

**Added a Pre-Liminary Starting Area and an  
Ending Area**

**Start developing the infographic session**

# Main Idea / Message

**Our Chosen Topic / Disorder:**

**OCD**

**Symptoms to Represent**

**Messages to Convey**

**Compulsive Actions**

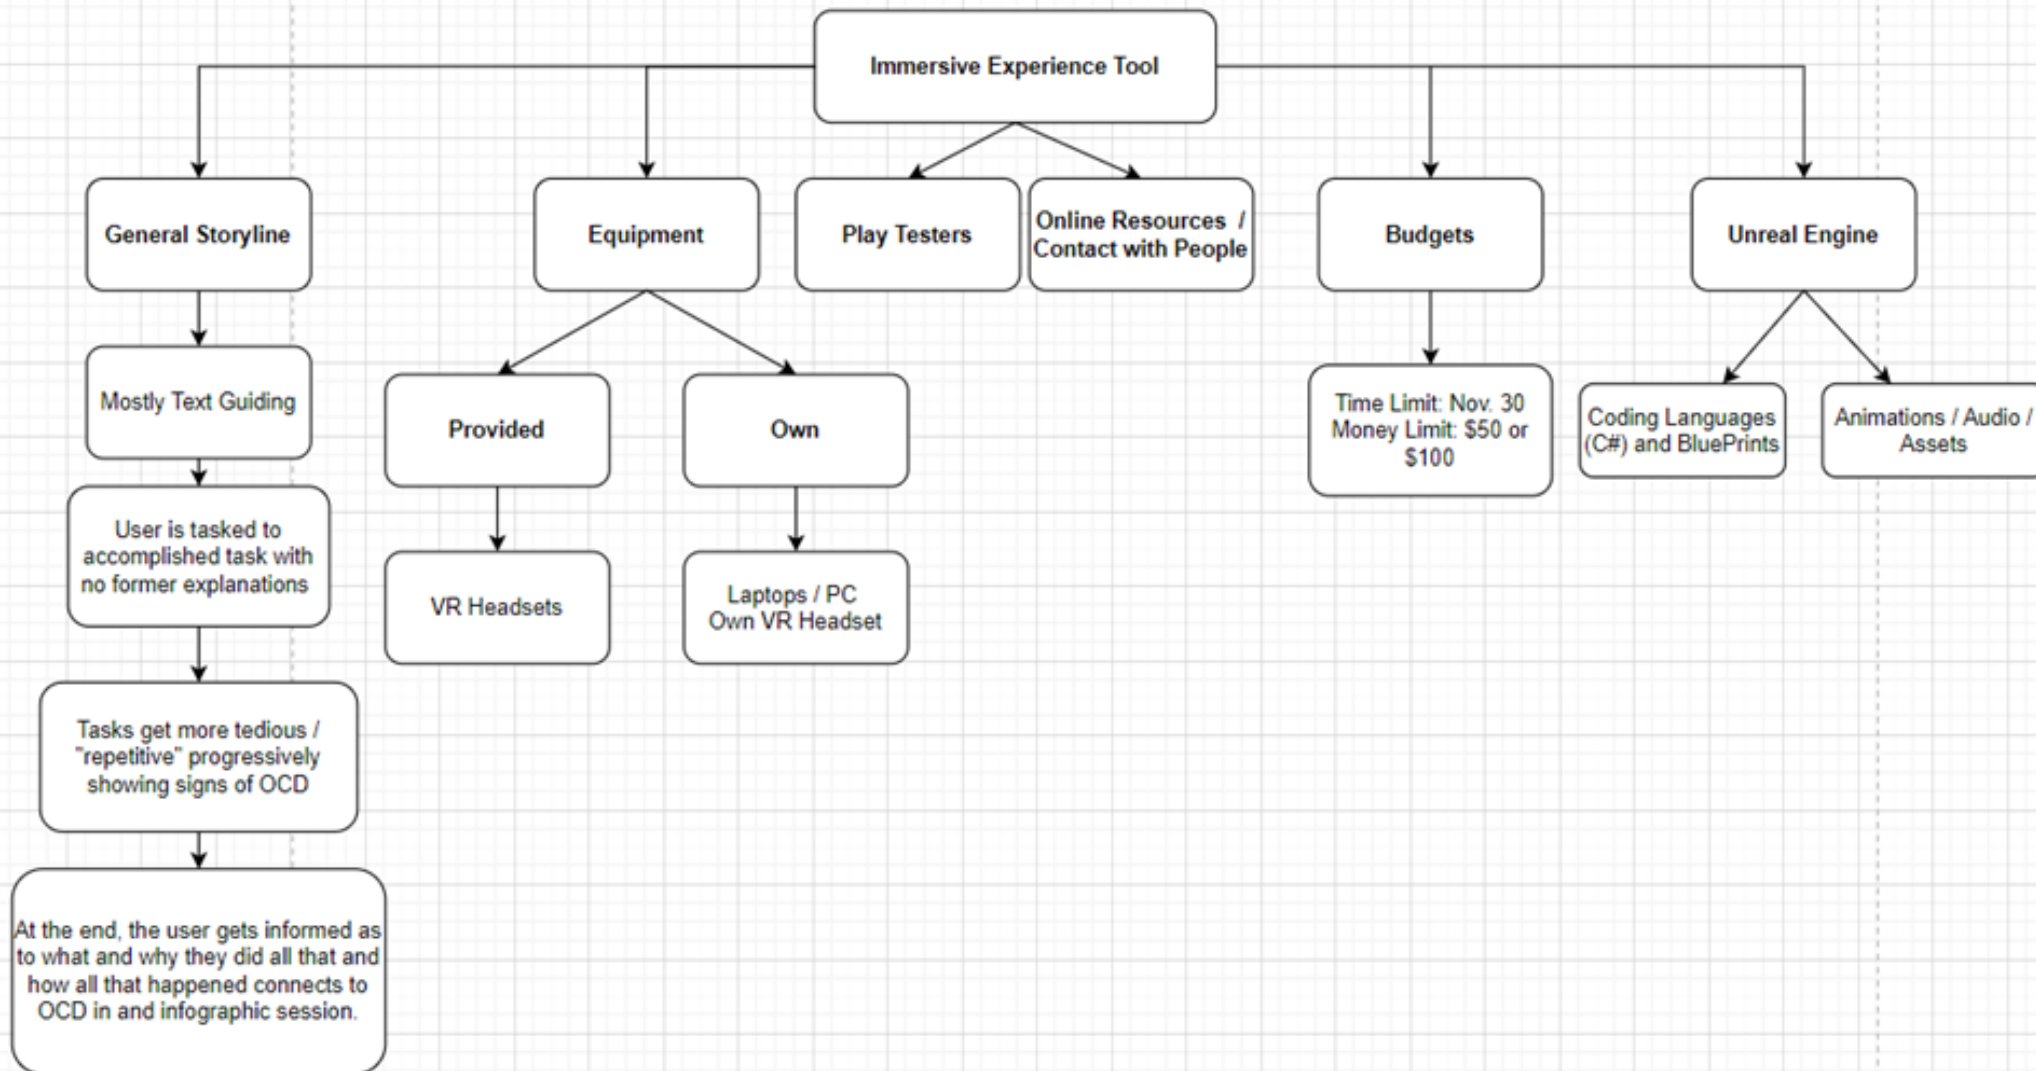

**Intrusive Thoughts**

**Anxiety**

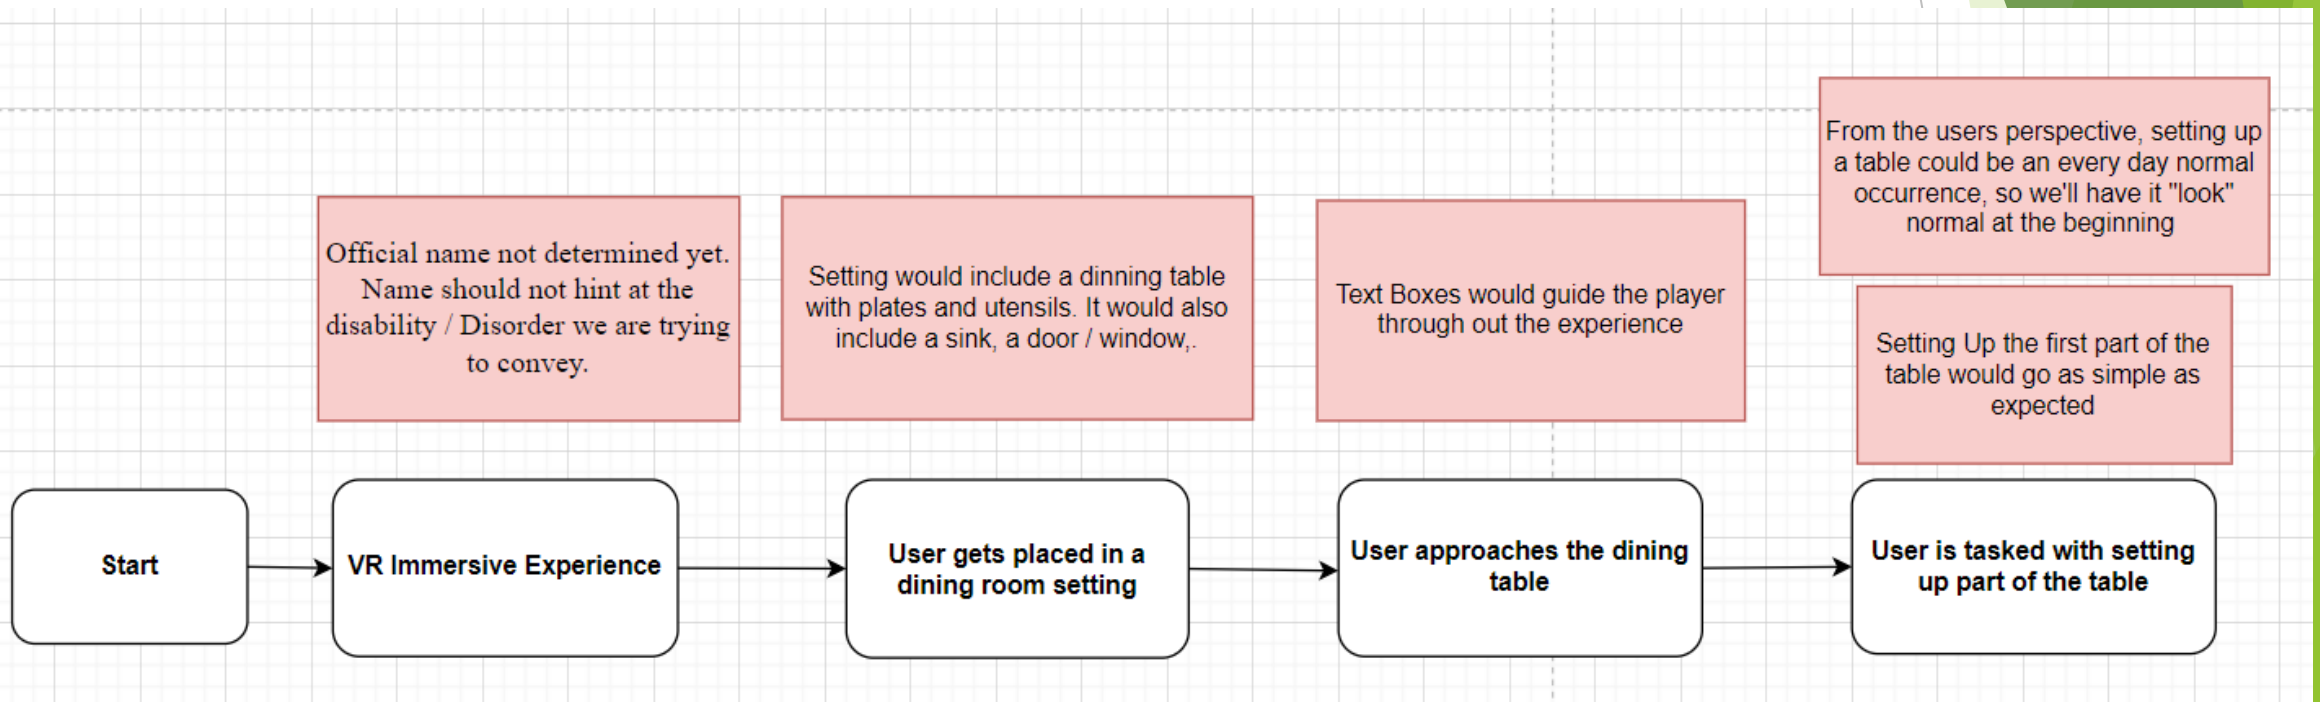

**Empathizing with people  
with disorders/disabilities**

**How these  
disorders/disabilities  
(OCD) can affect  
the quality of  
people's daily life.**

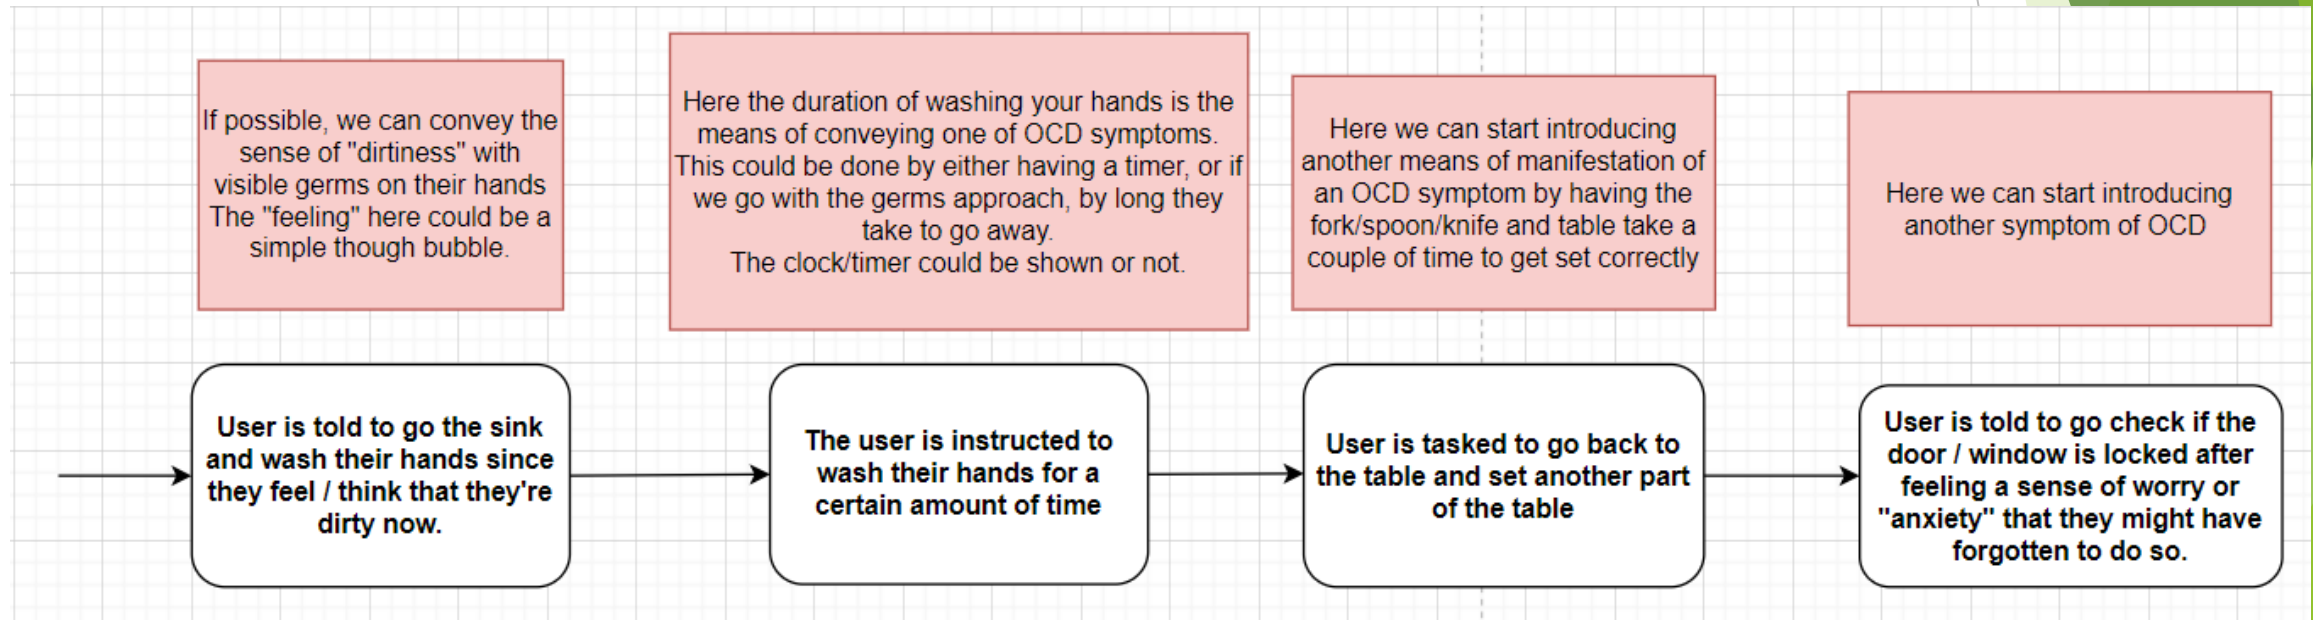

# Flow chart

# Refined Storyboard

# Refined Storyboard

# Refined Storyboard

Having no explanations of why the user is being told to do these "randomly" tedious tasks cements the goal of having a normal everyday task take longer than usual.

→ User keeps getting tasked to do a combination of all the previous actions.

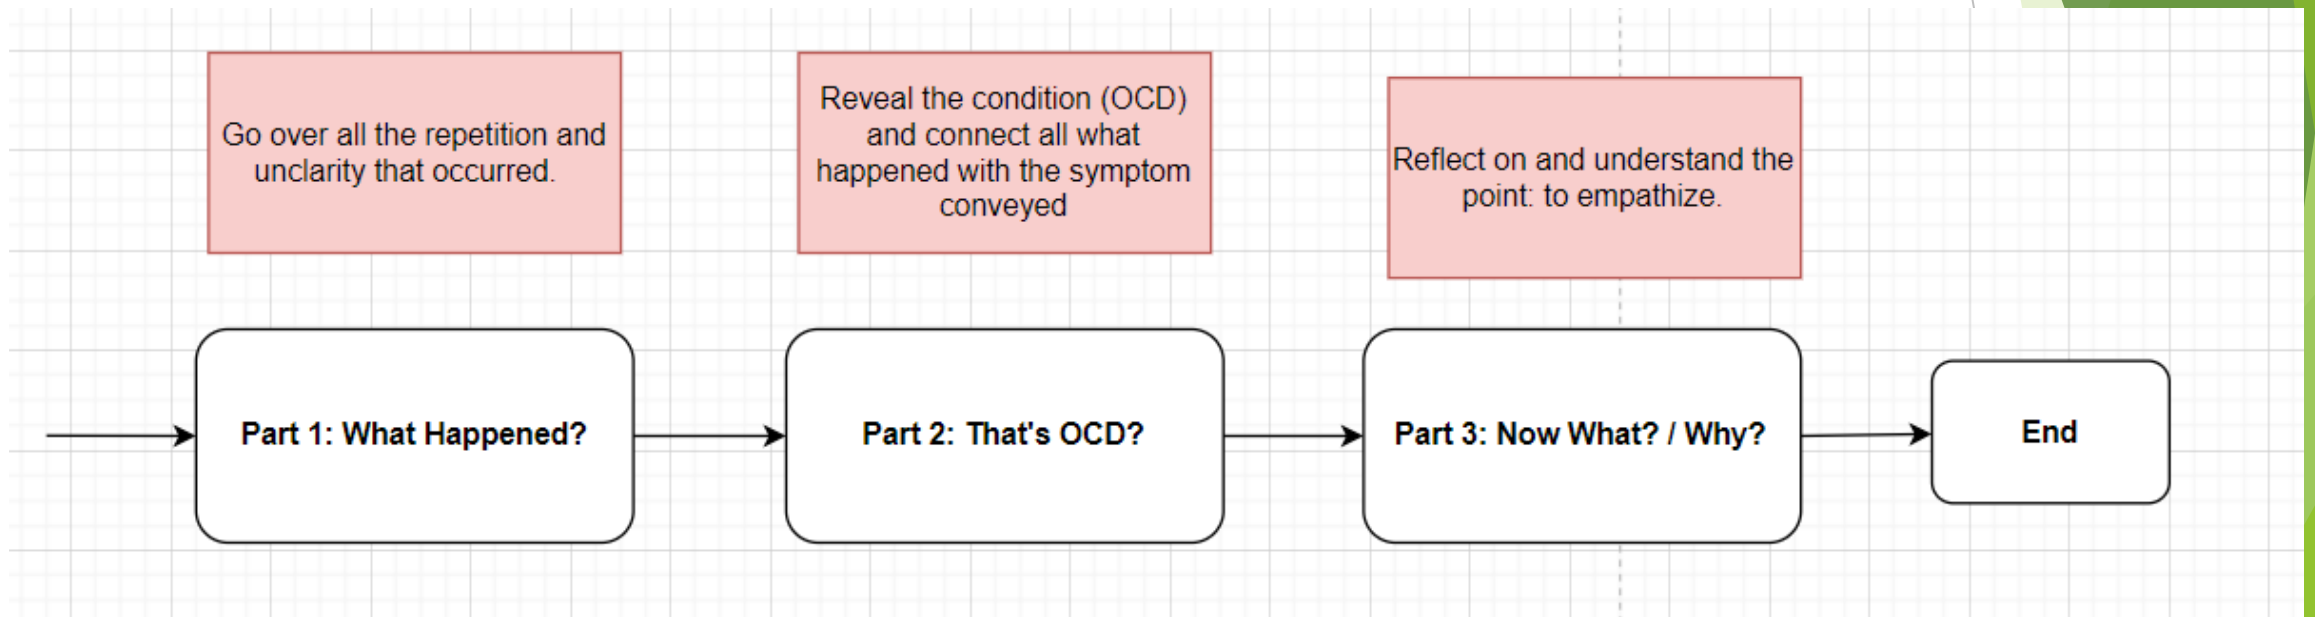

→ Interactive part of the experience ends

→ User gets to the "infographic" part

# Testing Results

- VR Development & Story Development:

*Table 12 - Benchmarking Prototype 2 against Target Specifications*

<b>Metric #</b>	<b>Metric</b>	<b>Units</b>	<b>Marginal Values</b>	<b>Ideal Value</b>	<b>Prototype 2 Values</b>
1	Simulation Length	s	<5:00	3:00	N/A
2	Amount of people that respond with empathy	%	>75%	100%	N/A
3	The frames per second performance optimization	FPS (Frames per second)	>30	>60	60
4	Accuracy to real experiences	Scale (1-5)	>=4	5	4
5	Amount of people able to use the experience with little to no instruction	%	80%	100%	N/A

# Testing Results

<b>Metric #</b>	<b>Metric</b>	<b>Units</b>	<b>Marginal Values</b>	<b>Ideal Value</b>	<b>Prototype 2 Values</b>
6	Coherence and quality of story	Scale (1-5)	$\geq 4$	5	N/A
7	Number of interactive events	#	$\geq 3$	$> 5$	3
8	Theme appropriate to students	Scale (1-5)	$\geq 3$	5	4

# Testing Results

*Table 13 - Benchmarking Prototype 2 against Newly Added Target Specifications*

<b>Metric #</b>	<b>Metric</b>	<b>Units</b>	<b>Marginal Values</b>	<b>Ideal Value</b>	<b>Prototype 2 Values</b>
1	Effectiveness of Expanded Progression System	Scale (1-5)	>4	5	4
2	Effectiveness of Connected Functionalities	Scale (1-5)	>=3	5	4
3	Effectiveness of Starting and Ending Areas	Scale (1-5)	>=4	5	2
