Project Deliverable I

Design Showcase Presentation

Alpha Squad (Team 1)

April 04, 2024

Abstract

The document outlines the presentation of our final product. We are now in the last stage of the design thinking process, with a fully functional prototype.

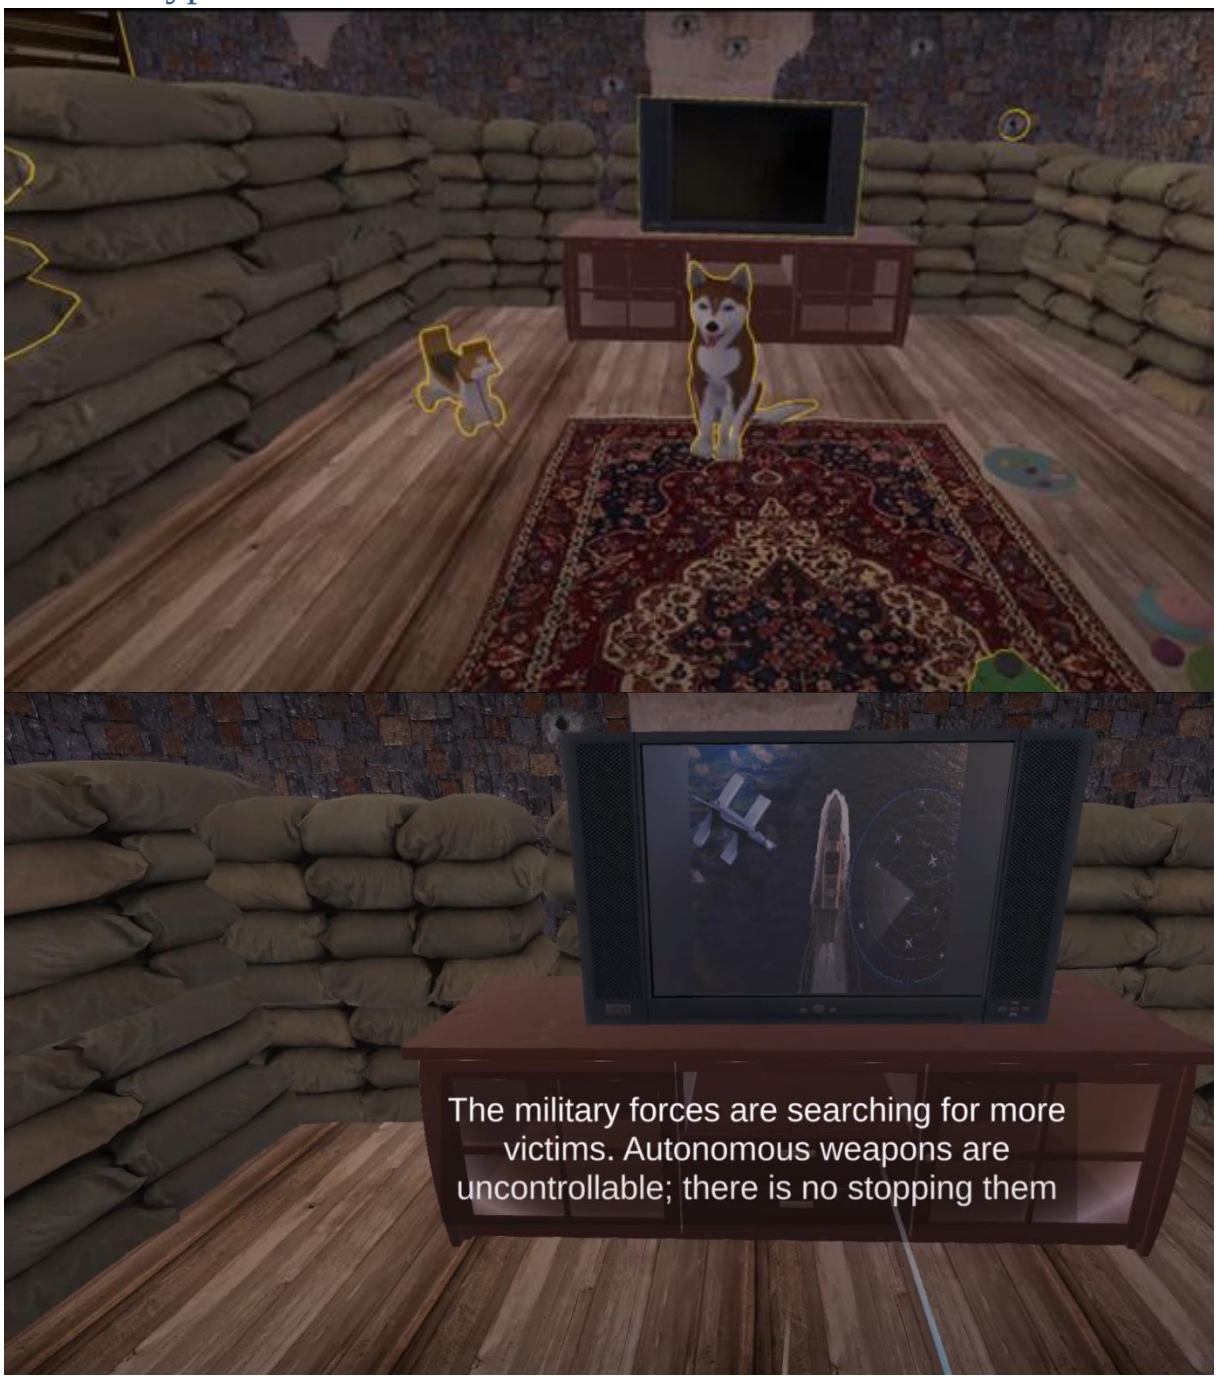
Table of contents

1. Summary for judges 4
2. Prototype 4
3. Visual Stimuli 6
   3.1 Tri-Fold 6
   3.2 Handouts 6
   3.3 Posters 7

1. Summary for judges

Our project aims to educate users and convince policy makers of the adverse effects of autonomous weapons on our society using a virtual reality environment.

2. Prototype



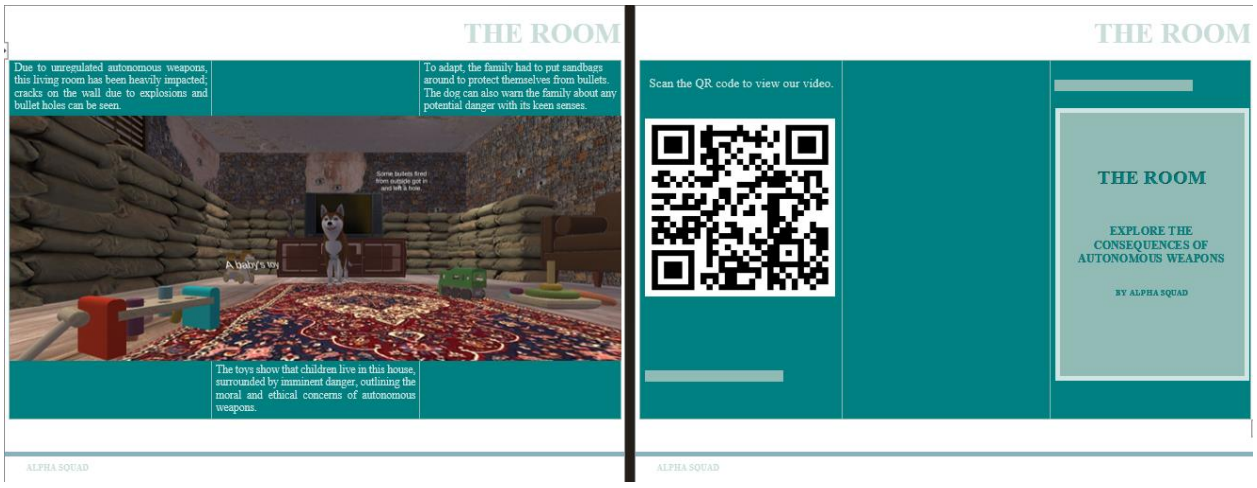
Dogs can sense the danger easily!
Calm the dog down!
[Dog whining / le chien pleure]

3. Visual Stimuli

3.1 Tri-Fold

3.2 Handouts

We have created handouts with easy and simple explanations of our environment. A QR code is also present to direct people to view our video, hence being exposed to the situation.



3.3 Posters

We printed a limited number of handouts to reduce paper wastage, and we will have posters with the QR code to enable more people to access our video by scanning the code, even if they won't have handouts.
