

ARCHITECT

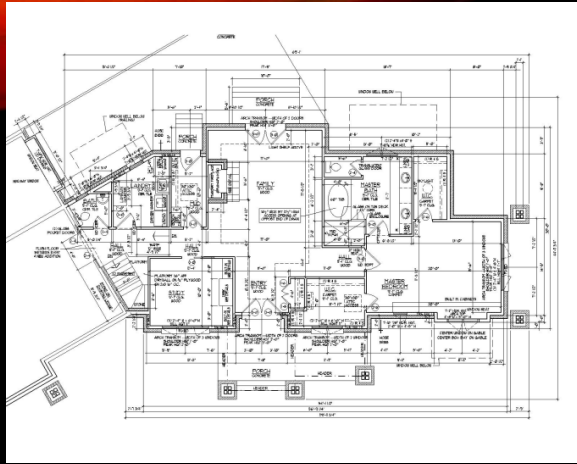

ARchitect is a software designed to help minimize the disconnect between the designer and the builder on a construction site, using VR/AR software to visualize the desired results in real time and 3D space.

THE PROBLEM

There is a difficulty in communication of 3D building designs between the **designers** and **builders**

Traditional Methods

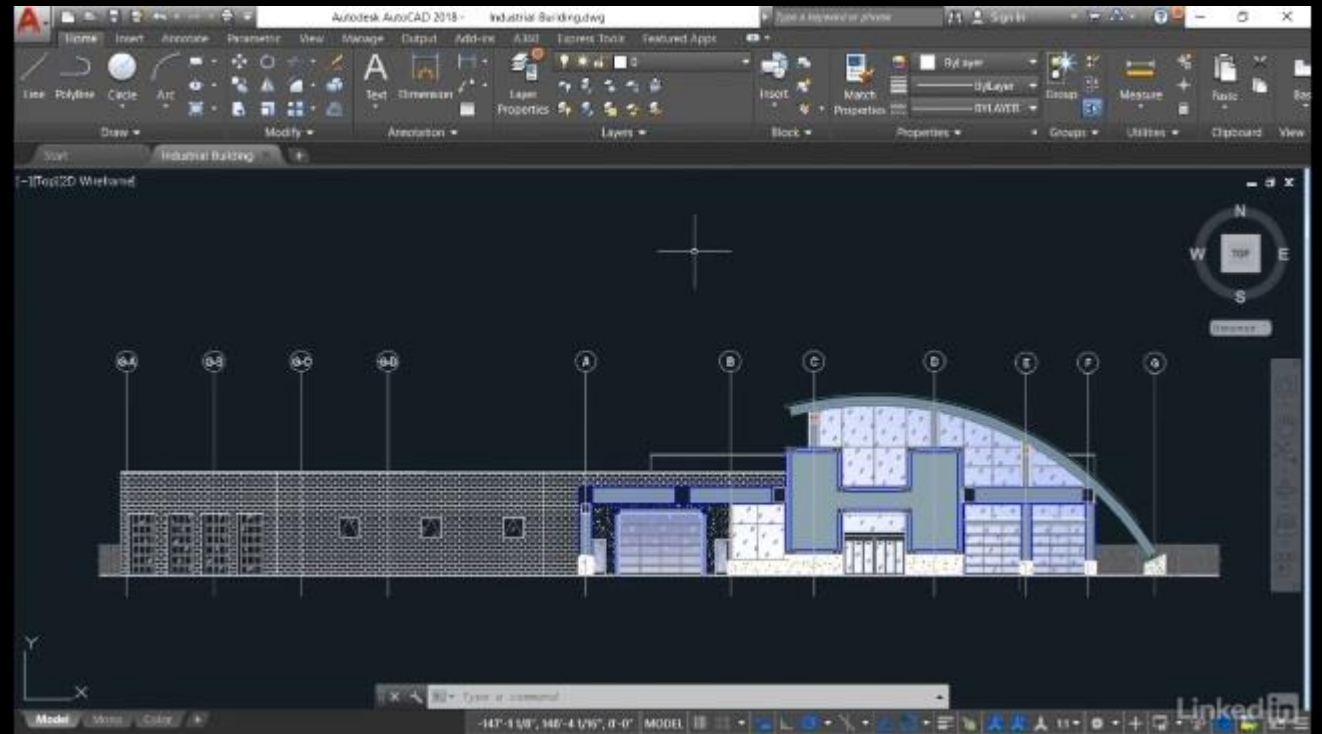

2D Blueprints (Paper)

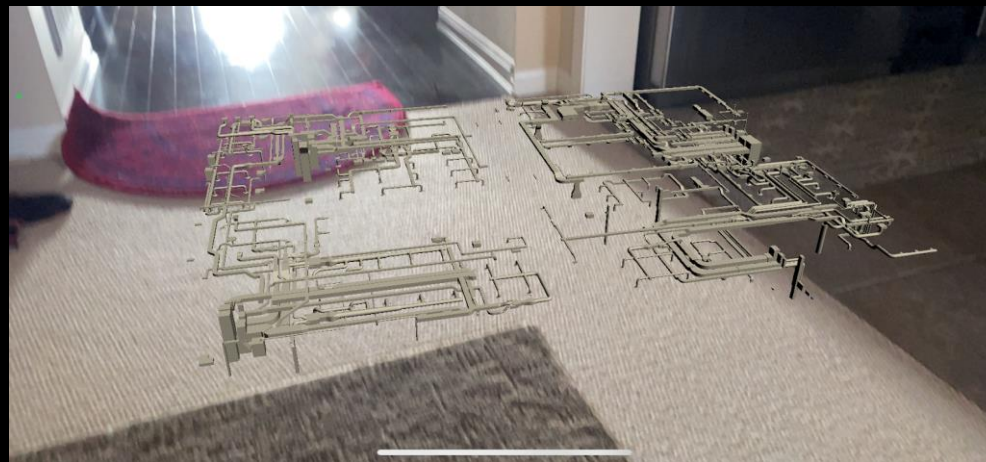

BIM - Business Information Modelling

CURRENT SOLUTIONS

AutoCAD

OUR SOLUTION

IN APP:

1) SELCECT LANGUAGE

2) UPLOAD A FILE USING "FILE" BUTTON IN THE HOME INTERFACE

3) TO WATCH TUTORIAL VIDEO GO TO THE USER MANUAL, THEN FIND AT BOTTOM OF SCREEN

4)BACK BUTTON WILL RETURN TO PREVIOUS SCREEN

SAFETY EQUIPMENT:

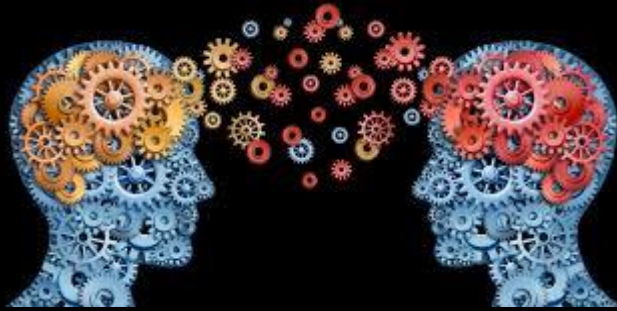

- HARD HAT
- STEEL TOE SHOES
- LONG PANTS/SLEVES
- EYE PROTECTION

FOR COMPLETE INTERFACE GUIDE, WATCH TUTORIAL VIDEO. ACCESS FOUND AT BOTTOM OF SCREEN.
